## INTERNET OF THINGS

### TECHNICAL SPECIFICATION

Power supply	13V DC ±10%   110-230V 50Hz/60Hz AC UL
Power safe	Li Battery 4 AH[optional], Auto-shut down super capacitor protection
Working memory	1GB   2GB   4GB
Storage	64GB class 3
Extended storage	256GB SSD [Optional]
Cloud	Amazon AWS Dedicated server
Out put control	<b>8x</b> 10A 220V   5A 30V DC, Dry contact out
Working Temperature	- 10°C up to 60°C
Connectivity	IEEE 802.11.b/g/n/ac wireless LAN 2.4GHz and 5GHz Bluetooth 4.2/BLE, faster Ethernet
Processor power	Quad-core processor, Cortex-A53 (ARMv8) 64-bit SoC @ 1.4GHz
Ports	<b>1x</b> HDMI 1.4, <b>4x</b> USB 2.0 ports
Input / Output	<b>8x</b> Dry contact out put Digital out <b>8x</b> Digital logical input - Isolated industrial <b>128x</b> Digital input expansion over i2C [optional]
Dimension [HxWxD]	46mm x 482mm x 90mm
External connections Protocols	I2C, 1Wire, TCPIP, Wifi, MODBUS[optional], Zigbee[optional] Zwave[optional], MQTT, GPIO, HDMI-Audio video, 433Mhz RF
Integration	amazon echo, Google Home, Apple Home kit, Grafana, HTML5, NODE JS, Python, MQTT, Node Red, Artificial Intelligence

### Monitoring Application

Exit Door monitoring  
Facility monitoring  
Temperature monitoring  
Sound level monitoring  
Environment monitoring  
Light intensity monitoring

CO2 monitoring  
Water detect  
Moisture level monitoring  
Altitude, Vibration  
GPS location sensing  
Atmosphere pressure sensing

### Control Application

Office Automation  
Home Automation  
Out door lighting  
Robotics, Automation  
Programmable logical Control  
Lighting/Motor control

IF THEN DO THIS  
Input vs Output control  
Timer control  
UAE Adan system  
Centralized audio player  
Timed Audio player

### MULTIPLE INTEGRATIONS

# OXYGEN O<sub>2</sub>

## AREA OF APPLICATION

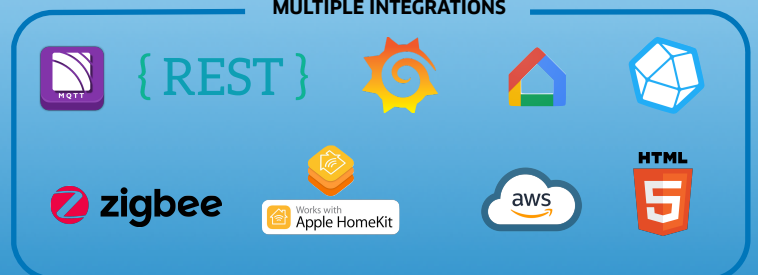

Application Area	Monitoring / Control
Shopping malls Hyper market/ Super market Retail chain Warehouses Commercial buildings	Fire Exit monitoring, Temperature on critical areas, Various location temperature measurements, Critical area safety, Entrance and exit with live snapshot, General area lighting control, Power status monitoring, Power consumption monitoring, Centralized monitoring and control, Monitor from anywhere, Critical information reporting, Shop attendance - Full featured Dash board for centralized monitoring
Residential building	Home devices control, Automations, Voice activated controls Amazon ALEXA, Google Home, Apple Home kit integration Unified control for all smart electronics devices Energy meters, Monitor your energy consumption
Gardening	Automatic water irrigation, Environmental monitoring Monitoring and Fully automated control, Valve control
Villa complex Airport , border security	Perimeter monitoring with laser lights / IR waves, Snapshot sending with IP Camera with 0.2 sec delay Messenger integration and LIVE update, Instant Photo Remote alarm, Visual and audible alarm, ultra fast response
Food vehicle	Live temperature monitoring, Centralized monitoring and control
Parking Building	<b>CO2</b> Monitoring, Environmental monitoring Temperature Humidity, CO, CO2, Light intensity, Air quality Lighting control, Exhaust air control, entry and exit vehicle snapshot from 4 /6 angle for safety and proof. Any custom solution.
Freezers	Centralized freezer temperature monitoring and control
Other	Any general purpose automation, timed controls, Automatic lighting

### SENSORS

Contact Sensor  
Temperature sensor  
Humidity sensor  
Carbon monoxide sensor  
Vibration sensor  
Water detect Sensor

Current Sensor  
Energy meter  
Voltage meter  
Motion detector  
Sound level sensor  
GPS sensors

### MULTIPLE INTEGRATIONS

# ANPR - AUTOMATION

## Car Plate recognition

Oxygen will read the plate number and check with white list, to allow or disallow | Barrier gate will open or close as per the conditions. A snapshot will be recorded for future use and system can be accessible from anywhere in the world.

INTERNET DATA
